Portfolio Website – Figma Make Prompt & Design Guide

1. Home

Structure

- • Fixed top navigation bar with logo (left), menu items (center), and dark/light mode toggle (right).
- • Introductory hero section with greeting text and call-to-action (CTA) button.
- • Responsive: On mobile, the navigation bar transforms into a hamburger menu. The logo remains on the left, and the menu collapses into a right-side drawer.

Style

- • Soft gradient background with decorative bird silhouettes.
- • Creative and friendly aesthetic with pastel tones.

Interactions & Animations

- • Navigation bar remains fixed on scroll.
- • Menu items enlarge slightly and change color on hover.
- • CTA button changes color on hover.
- • Clicking menu items scrolls smoothly to corresponding sections.
- • Birds in the background animate upward and disappear on scroll.

2. About Me

Structure

- • Main heading: 'Mi conjunto de habilidades y pericia'.
- • Descriptive paragraph about experience and interests.
- • Profile card with photo, location, education, and tags.
- • Three colored statistic boxes (GitHub contributions, projects, passion).

Style

- • Balanced layout with text on the left and visual card on the right.
- • Use of decorative circular patterns and soft color blocks.

Interactions & Animations

- • Keywords ticker (UX/UI terms) scrolls horizontally in a thin band below the section.
- • Statistic boxes animate with a liquid fill effect from bottom to top on load.

3. Projects

Structure

- • Section title and subtitle introducing project showcase.
- • Each project includes a title, role, description, and image.
- • Images are clickable and link to detailed case study pages.

Style

- • Clean layout with alternating text and image alignment.
- • Use of icons to indicate tools used (e.g., Figma, Sketch, Ps).

Interactions & Animations

- • Project images act as links to subpages.
- • Hover effects on images to indicate interactivity.

4. Exploration

Structure

- • Large centered quote: 'Estoy explorando constantemente nuevas mejores prácticas y flujos de trabajo.'

Style

- • Bold typography with colors derived from the primary palette (#025959).

Interactions & Animations

- • Static section with visual emphasis through typography and color.

5. UX/Design Skills

Structure

- • Introductory paragraph about design philosophy.
- • Two-column list of UX and Design skills.
- • Icons representing design tools (Figma, Photoshop, Sketch, etc.).

Style

- • Organized grid layout with clear sectioning.
- • Professional and clean presentation.

Interactions & Animations

- • Tool icons change to brand colors on hover and display tooltips with names.
- • Skill list items are static with no hover effects.

6. Technical Skills

Structure

- • Introductory paragraph about programming values.
- • List of development skills and technologies.
- • Icons for tech stack (HTML5, CSS3, JS, React, Java, Python, Git, etc.).

Style

- • Structured layout with emphasis on technical proficiency.

Interactions & Animations

- • Static section with no hover effects on skill items.

7. Feedback (formerly Artworks)

Structure

- • Carousel of feedback cards replacing previous artwork section.
- • Each card includes: star rating, comment, name of agency/person, and project name.

Style

- • Card layout with clean typography and consistent spacing.

Interactions & Animations

- • Carousel scrolls horizontally with navigation arrows or auto-scroll.

8. Contact

Structure

- • Profile-style card with image (LinkedIn preview), name, and location.
- • Two buttons: '+ Conectar' (links to LinkedIn) and 'Obtener currículum' (opens PDF).

Style

- • Professional layout with shadow under profile image.

Interactions & Animations

- • Buttons have hover animations (color/surface change).
- • No contact form present.

9. Responsive Design Guide

Breakpoints & Grid System

Device	Width	Grid Columns	Margins
Desktop	1440px	12	24px
Tablet	768px	8	16px
Mobile	375px	4	12px

Navigation Bar Behavior

• Desktop: Full menu visible with logo on the left, menu items centered, and dark/light toggle on the right.

• Tablet: Menu may collapse into a dropdown or simplified layout.

• Mobile: Navigation bar transforms into a hamburger menu. Logo remains on the left, and a hamburger icon appears on the right. Tapping the icon opens a right-side drawer with navigation options.

Spacing Guidelines

Element	Desktop	Tablet	Mobile
Section Vertical Spacing	64px	48px	32px
Container Padding	24px	16px	12px
Touch Targets	-	-	Min 44x44px
